AutoScan Inspec2

Automatic Desktop 3D Scanner

Metrology-Grade Accuracy

With a scan accuracy of 0.01 mm, it ensures consistent, reliable results for complex small objects.
Full Color Scanning

Captures true-to-life colors to ensure accurate texture reproduction for enhanced inspection, documentation, and digital modeling for various applications.
Ultra-Fine Details

Equipped with dual 5MP high resolution cameras, it can capture every detail of the components meticulously.
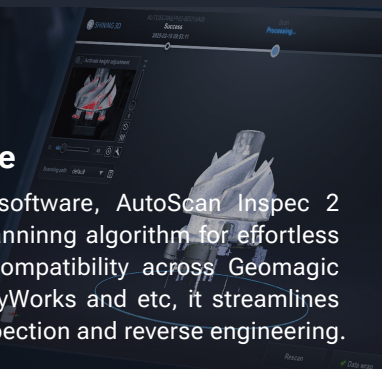

Automatic & Efficient

Features 3-axis turntable, enabling hands-free, multi-angle scanning with one-click operation to capture data efficiently.

Advanced Software

Powered by UltraScan software, AutoScan Inspec 2 delivers AI intelligent scanninng algorithm for effortless operation. With broad compatibility across Geomagic Control X, Design X, PolyWorks and etc, it streamlines workflows for quality inspection and reverse engineering.
Compact & Lightweight

Only 5 kg

Weighing only 5 kg, its streamlined, space-saving design makes it easy to integrated into laboratories, workshops, and industrial environments.

Versatile Applications
• Quality Control

• Reverse Engineering

• Product Design

• Jewelry

• Heritage Preservation

• Healthcare

Specifications

Product	AutoScan Inspec2
Accuracy	0.01 mm
Field of view	140 × 90 × 80 mm
Align mode	Feature, Markers
Point distance	0.05 mm
Rotation axis	3 Axis
Camera resolution	2 × 5MP
Light source	LED blue light
Color scan	Supported
Dimensions	420 × 260 × 270 mm
Weight	5 kg
Power	DC 24V
Work temperature	0 ~ 40 °C
Operation system	Windows 10 / Windows 11 (64 bits)
Output format	STL, OBJ, PLY
Certification	CE, FCC, ROHS, WEEE, KC
